CHOOSING THE DESIRED BOTTOM SHELF

The shelf on the basket is reversible. You can have a white or gray bottom. To change the color remove the (4) M4 x 4.5mm pan head screws from the bottom of the shelf. Choose the desired color by flipping the shelf. Install the bottom shelf back by screwing the (4) M4 x 4.5mm pan head screws back into the unit. (See Figure A).

STEP 1

Attach the slides to the frame with the (2) M4 x 25 mm pan head screws. Once secure, engage the slides by placing the back of the frame on the back of the slides and press the slides down until you hear a click (See Figure B).

STEP 2

Attach the cover to the top slide by using (2) of the M5 x 6 mm pan head screws (See Figure C).

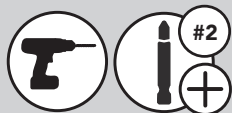

FIGURE A

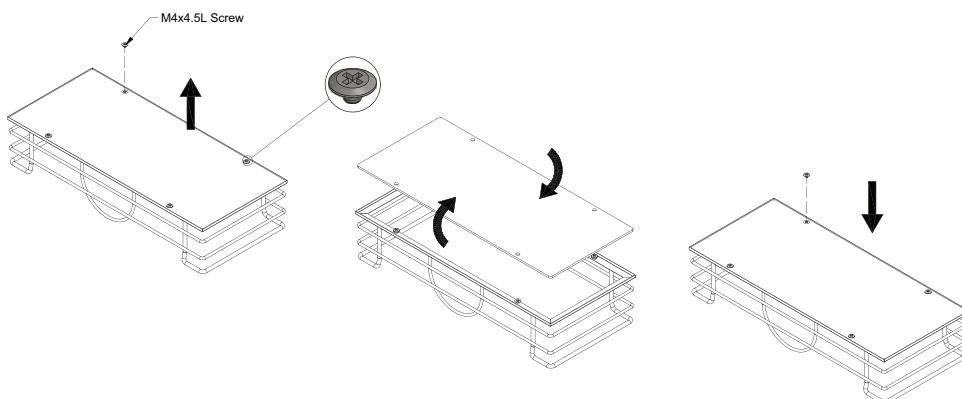

FIGURE B

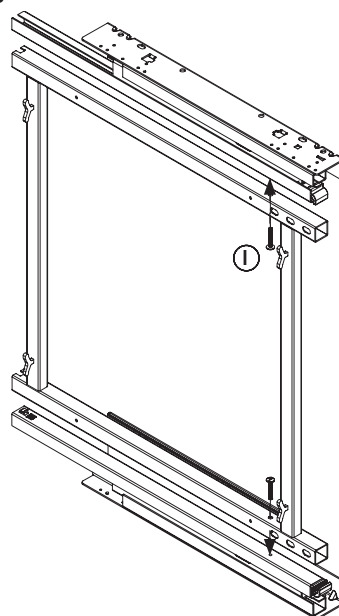

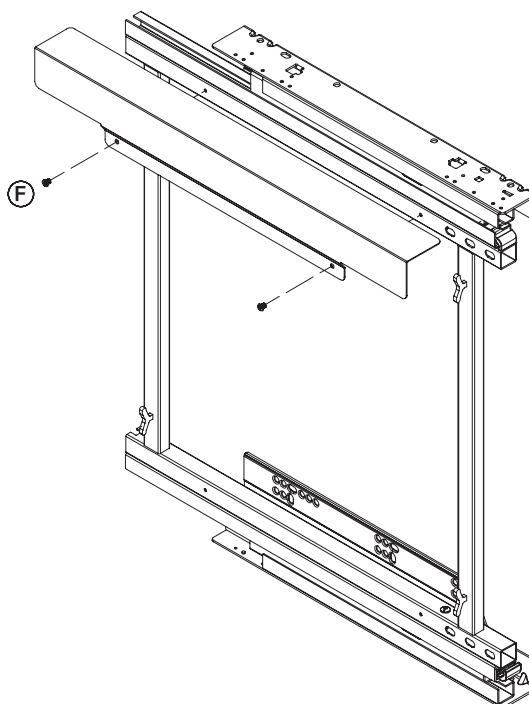

FIGURE C

STEP 3

Using the measurements in **Figure D**, attach the frame assembly to the cabinet with (6) 4G x 18 mm pan head screws.

FIGURE D

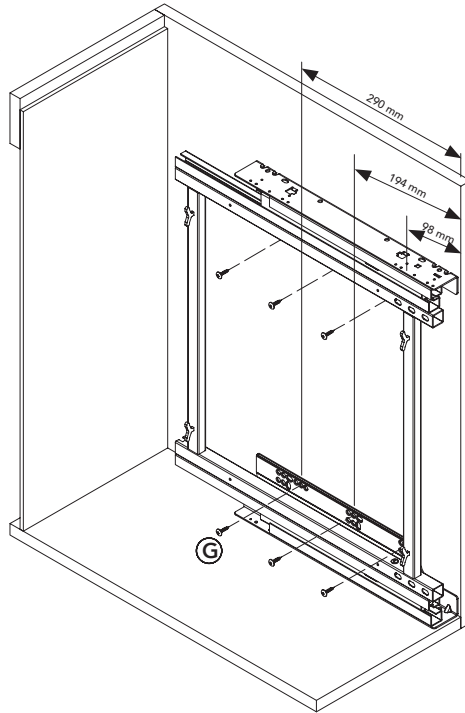

FIGURE E

Using the measurements in **Figure E**, attach the (2) door mounting brackets to the cabinet door using (8) of the 4G x 18 mm flat head screws (**See Figure E**).

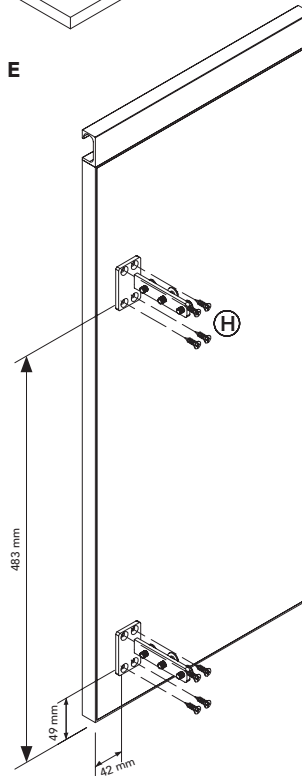

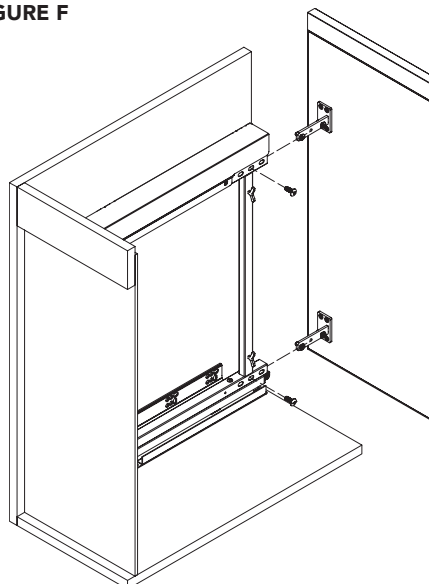

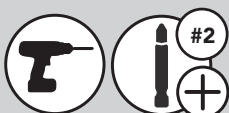

FIGURE F

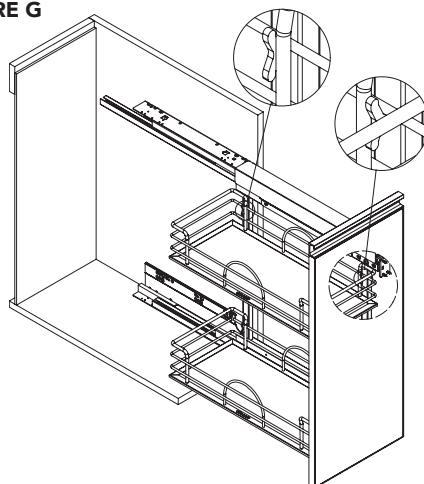

Take the long middle screw out of the bracket. Slide them onto the slides, line the holes up, and screw the long screw back into its middle slot (**See Figure F**).

STEP 6

Attach the baskets to the slides. Pay close attention to the hook placement when placing the basket into the unit. (See **Figure G**).

FIGURE G

DOOR ADJUSTMENT

If the cabinet door is not lining up correctly, use the images in **Figures H-1 and H-2** to loosen and tighten the door mounting screws to properly adjust the cabinet door.
